WORK EXPERIENCE

Backend Developer   May. 2023 – Date

Halcyon Aegis | Lagos, Nigeria (Remote)
Vastel | Lagos, Nigeria (Remote)
LEXIS Pos | Lagos, Nigeria (Remote)

- Building responsive and user-friendly frontend applications using modern technologies such as React, Livewire, Tailwind, and TypeScript.
- Developing and integrating RESTful APIs to enable seamless communication between frontend and backend systems.
- Creating clear and detailed API documentation to ensure smooth implementation and usage for developers and stakeholders.
- Designed and developed a Point of Sale (POS) application to streamline sales transactions, inventory management, and reporting for businesses.
- Built a fully functional E-commerce platform to enable online shopping, payment processing, and order management for retailers.
- Created a Licensing app to manage and automate the issuance, renewal, and tracking of licenses for users and organizations.

Backend Developer   Mar. 2020 – Apr. 2023

AppTech Solutions | Osun, Nigeria (On Site)

- Designed and developed a web application for the School of Nursing to streamline administrative processes and improve user experience for students and staff.
- Created a comprehensive College of Health app to manage student data, course schedules, and resource distribution efficiently.
- Built a Secondary School Management app to automate attendance tracking, grading, and communication between teachers, students, and parents.
- Developed a Learning Management System (LMS) app to facilitate online learning, course management, and progress tracking for educational institutions.
